Art Unit: 3689

**DETAILED ACTION**

1. This is in response to the applicant's communication filed on 14 September 2009, wherein:

Claims 1-3, 7-9, 13-15, and 19 are currently pending.

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 14 September 2009 has been entered.

***Response to Amendment***

1. Applicant's amendments filed 14 September 2009 have been fully considered.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-3, 7-9, 13-15, and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for

Art Unit: 3689

failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-3, 7-9, 13-15, and 19 use the abbreviation "USCO" without having defined the abbreviation, which is confusing. Examiner assumes applicants refer to the United State Copyright Office.

***Claim Rejections - 35 USC § 103***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. **Claims 1-3, 7-9, 13-15, and 19 are rejected** under 35 U.S.C. 103(a) as being unpatentable over [www.godaddy.com](http://www.godaddy.com), 02 February 2003 (hereinafter referred to as "Go Daddy"), in view of Glogau (US 5983351).

**Referring to claim 1:**

Go Daddy teaches

A) the Facilitator's web site offering hosting services on the Internet to the Entrepreneur (page 1; "host your site");

B) the Facilitator's web site assisting the Entrepreneur in designing an Entrepreneur's web site by providing web site design services, wherein the Entrepreneur's web site is hosted on a server and is

Art Unit: 3689

associated with an IP address managed by the Domain Name System (page 1; "create your own web site"); and

E) the Facilitator's web site electronically submitting the translated copy of the material to be copyright to the USCO (page 1; "Federal Copyright Protection").

Go Daddy does not teach; however, Glogau teaches

C) the Facilitator's web site accessing the Entrepreneur's web site to obtain a copy of a material to be copyrighted (col. 3, line 40 thru col. 4, line 7 and col. 9, lines 23-26 and col. 12, lines 51-58; "computer system enhances copyright registration of Internet web site(s) by...copy[ing] the client's web site" and where the Facilitator's web site inherently requires use of a computer system and further, "to obtain a copy of a material to be copyrighted" is not a positive recitation of a claim limitation and therefore, receives little patentable weight);

D) the Facilitator's web site translating the copy of the material to be copyrighted into a format acceptable to the USCO (col. 3, line 40 thru col. 4, line 7 and col. 12, lines 51-58; "computer system enhances copyright registration of Internet web site(s) by...format[ting] the

Art Unit: 3689

'packaged' web site...for filing" and where the Facilitator's web site inherently requires use of a computer system).

One skilled in the art would have found it obvious from the combined teachings of Go Daddy and Glogau as a whole to produce the invention as claimed with a reasonable expectation of providing a Facilitator's web site which accesses the Entrepreneur's web site to obtain a copy of a material to be copyrighted and a Facilitator's web site which translates the copy of the material to be copyrighted into a format acceptable to the USCO.

**Referring to claim 2:**

Claim 2 is dependent on claim 1; therefore, the rejection of claim 1 is incorporated as if fully recited herein.

Go Daddy teaches the Facilitator's web site assisting the Entrepreneur in selecting an available domain name having a label and a top-level domain based on one or more words chosen by the Entrepreneur to describe the Entrepreneur's business (page 1; "get a domain name").

**Referring to claim 3:**

Claim 3 is dependent on claim 1; therefore, the rejection of claim 1 is incorporated as if fully recited herein.

Art Unit: 3689

Go Daddy teaches the Facilitator's web site submitting the Entrepreneur's web site to one or more search engines (page 1; "traffic blazer").

**Referring to claim 7:**

Go Daddy teaches:

A) the Facilitator's web site offering domain name registration services over the Internet to the Entrepreneur (page 1; "get a domain name");

B) the Facilitator's web site offering hosting services on a server for the Entrepreneur's web site at an Internet protocol address associated with a domain name having a label and a top-level domain registered by the Entrepreneur (page 1; "host your site");

E) the Facilitator's web site electronically submitting the translated copy of the material to be copyright to the USCO (page 1; "Federal Copyright Protection").

Go Daddy does not teach; however, Glogau teaches

C) the Facilitator's web site accessing the Entrepreneur's web site to obtain a copy of a material to be copyrighted (col. 3, line 40 thru col. 4, line 7 and col. 9, lines 23-26 and col. 12, lines 51-58; "computer system enhances copyright registration of Internet web

Art Unit: 3689

site(s) by...copy[ing] the client's web site" and where the Facilitator's web site inherently requires use of a computer system and further, "to obtain a copy of a material to be copyrighted" is not a positive recitation of a claim limitation and therefore, receives little patentable weight);

D) the Facilitator's web site translating the copy of the material to be copyrighted into a format acceptable to the USCO (col. 3, line 40 thru col. 4, line 7 and col. 12, lines 51-58; "computer system enhances copyright registration of Internet web site(s) by...format[ting] the 'packaged' web site...for filing" and where the Facilitator's web site inherently requires use of a computer system).

One skilled in the art would have found it obvious from the combined teachings of Go Daddy and Glogau as a whole to produce the invention as claimed with a reasonable expectation of providing a Facilitator's web site which accesses the Entrepreneur's web site to obtain a copy of a material to be copyrighted and a Facilitator's web site which translates the copy of the material to be copyrighted into a format acceptable to the USCO.

Art Unit: 3689

**Referring to claim 9:**

Claim 9 is dependent on claim 7; therefore, the rejection of claim 7 is incorporated as if fully recited herein.

Claim 9 is rejected on the same basis as claim 3.

**Referring to claim 13:**

Go Daddy teaches:

A) the Facilitator's web site offering domain name registration services over the Internet to the Entrepreneur (page 1; "get a domain name");

B) the Facilitator's web site assisting the Entrepreneur in designing an Entrepreneur's web site hosted on a server by providing web site design services on the

Art Unit: 3689

Facilitator's web site (page 1; "create your own web site");

E) the Facilitator's web site electronically submitting the translated copy of the material to be copyright to the USCO (page 1; "Federal Copyright Protection").

Go Daddy does not teach; however, Glogau teaches

C) the Facilitator's web site accessing the Entrepreneur's web site to obtain a copy of a material to be copyrighted (col. 3, line 40 thru col. 4, line 7 and col. 9, lines 23-26 and col. 12, lines 51-58; "computer system enhances copyright registration of Internet web site(s) by...copy[ing] the client's web site" and where the Facilitator's web site inherently requires use of a computer system and further, "to obtain a copy of a material to be copyrighted" is not a positive recitation of a claim limitation and therefore, receives little patentable weight);

D) the Facilitator's web site translating the copy of the material to be copyrighted into a format acceptable to the USCO (col. 3, line 40 thru col. 4, line 7 and col. 12, lines 51-58; "computer system enhances copyright registration of Internet web site(s) by...format[ting] the

Art Unit: 3689

'packaged' web site...for filing" and where the Facilitator's web site inherently requires use of a computer system).

One skilled in the art would have found it obvious from the combined teachings of Go Daddy and Glogau as a whole to produce the invention as claimed with a reasonable expectation of providing a Facilitator's web site which accesses the Entrepreneur's web site to obtain a copy of a material to be copyrighted and a Facilitator's web site which translates the copy of the material to be copyrighted into a format acceptable to the USCO.

**Referring to claim 14:**

Claim 14 is dependent on claim 13; therefore, the rejection of claim 13 is incorporated as if fully recited herein.

C) the Facilitator's web site assisting the Entrepreneur in designing an Entrepreneur's web site hosted on a server by providing web site design services on the Facilitator's web site using at least some of the stored information regarding the Entrepreneur (page 1; "create your own web site"); and

E) the Facilitator's web site electronically submitting the translated copy of the material to be copyright to the USCO (page 1; "Federal Copyright Protection").

Go Daddy does not teach; however, Glogau teaches

C) the Facilitator's web site accessing the Entrepreneur's web site to obtain a copy of a material to be copyrighted (col. 3, line 40 thru col. 4, line 7 and

Art Unit: 3689

col. 9, lines 23-26 and col. 12, lines 51-58; "computer system enhances copyright registration of Internet web site(s) by...copy[ing] the client's web site" and where the Facilitator's web site inherently requires use of a computer system and further, "to obtain a copy of a material to be copyrighted" is not a positive recitation of a claim limitation and therefore, receives little patentable weight);

***Response to Arguments***

Applicant's arguments, see pages 7-8 of 12, filed 14 September 2009, with respect to the rejection under 35 USC 112, 1<sup>st</sup> paragraph have been fully considered and are persuasive. After reviewing the original Fig. 1 in combination with the paragraphs of the specification referenced by applicant, Examiner has determined that the amendment did not add new matter. The rejection of the amendments to claims 1-3, 7-9, 13-15, and 19 has been withdrawn.

Applicant's arguments filed 14 September 2009 have been fully considered as to the rejection under 35 USC 103 but they are not persuasive.

Applicants argue that Glogau does not teach that it is a "Facilitator's web site accessing the Entrepreneur's web site to obtain a copy of the material to be copyrighted" or that it is a "Facilitator's web site translating the copy of the material to be copyrighted into a format acceptable to the USCO". Examiner respectfully disagrees with applicant.

Examiner directs applicant to col. 12, lines 51-58 of Glogau, which state, "**the present invention may be implemented** by a user's computer system, or the user's

Art Unit: 3689

computer system in combination with any quantity of server or host systems residing on the web, or in communication with the user's computer system." Glogau's system may be used on the internet; therefore, a website is used to carry out the claimed invention.
